

### **Intensive Music**

That never lets you down is the central output of the formation "killmenoc". Far away from any general musical classification they present an atmospheric sound full of energy which includes elements of pop metal and rock. The music is heavy and very melodic in the same breath. Impressive female vocals combined with a sometimes progressive, everytime powerful instrumentation gives you a wide array of emotions. Performing international concerts the band underlines the quality of their live-shows.

Thomas Ahrens	bs
